RE: Restoration of Red Bluffs' Building exterior/ interior paint by Jackpot Painting

To Whom It May Concern:

On behalf of the Board of Directors at the Red Bluffs, we would like to highly recommend Jackpot Painting to any potential customer for the outstanding service provided during the remodeling /restoration of the Red Bluffs Complex in Summerlin, Las Vegas, NV.

Jackpot Painting went above our expectations with their keen eye to detail, and impeccable quality of service. After our extended research and Jackpot's recommendation to select Ultra Seal as the final paint product, we are extremely happy with our decision.

Ultra seal has unique properties and it is highly desirable to anyone who strives for excellence; Energy Stars Product, Class A Fire Rating, Sound/Water Proof and Heat Dissipater are just a few characteristics of this marvelous product. In addition, Jackpot Painting is the only vendor in the state of Nevada authorized to apply this product.

Our deepest appreciation goes to Mr. Frank Carmen for overseeing this very tedious and labor-intensive project in the most professional and effective way. You're a world class organization and once again, thank you for a job wonderfully done!

Sincerely,

Craig Di Thomas
Red Bluffs HOA President
