Subject: Great Job!

Dan,

They did a great job with the painting of Building #29

The painters were extremely polite and obviously taking extra steps to be as quiet as possible early in the mornings. Very thorough masking and prep work and a the final job looked extremely good.

And... Not a speck garbage left behind. In fact, they would clean up gravel and dog waste left by residents each morning upon their arrival.

I also received a courtesy call from Frank Jr inquiring if the job was done to my satisfaction.

We are very fortunate to have Jackpot Painting on this job.

Steve
